

Equipment 4 the Fresh Assignment 2021 Cross Over by Bro Gbile Akanni

by Gbile Akanni

Gbile Akanni emphasizes the necessity of fresh spiritual unction and divine equipment to effectively engage in the new, expansive assignment God is unfolding for His people.

Duration: 2:55:55

Scripture: 1 Kings 19:15-18, Judges 13, John 3:8

Topics: "Divine Assignment"

Description

In this prophetic sermon, Gbile Akanni calls believers to prepare for a new and expansive move of God by seeking fresh spiritual unction and equipping themselves for the fresh assignment ahead. He highlights the significance of consecration, the unstoppable nature of God's work, and the need to embrace a larger vision beyond past achievements. This message encourages the church to rise to the challenge and participate fully in God's unfolding plan.

Transcript

The shout of victory will never depart from your house, in the name of Jesus Christ. The shout of joy will continue to be regular in your mouth all through the year, in the name of Jesus Christ. Unprecedented miracles, unexpected surprises will come your way in the name of Jesus Christ.

Praise the Lord. We are going to take your hymn book, your paper. There is a song that God has brought to us that we need to sing and walk with this year.

It is a song that we have been singing before, but God has given it a dimension. Before I read, I bring the word of God to you, what God has said, which when we begin to have the visions retreat, we will speak more into. But before that, I would like us to take that hymn.

Give us, O Lord, thy function. Anoint us for thy work. Arise and set us in motion, O Lord, the man of war.

If you have not got a copy of the program, where the hymn sheets are, please, somebody will bring it to you now. I know we are quite many, but the program will still go around. Just wave your hand, the brothers are coming.

Just wave your hand. Look at where hands are being waved. Okay, brothers, go ahead.

Some people are very far behind. Look up there, there are brothers and sisters waving their hands. Can you please go and make sure everyone has a copy? Give us, O Lord, thy function.

Anoint us for thy work. Arise and set us in motion, O Lord, the man of war. Baptize us, Lord, with thy fire.

And set our souls aflame to burn and shine for thy cause. Revive your zeal in us. Refine us, Lord, and cleanse us.

Clothe us in holiness. Transform our thoughts and nature till we your glory show. New hearts, more love, more passion.

For souls in Satan's train, with hook or net, use us still. Make us fishers of men. Not gold, not power, not knowledge.

With thy heaven on lock, with prayer and faith and unity, we bring the latter rain. With tears and groans and fasting, O Lord, help us to pray. Travelling us in paths for souls, till you revive the church.

Now, we're going to sing that song, but before we begin to sing it, this song is going to be an important prayer for each one of us because of where we are entering. Our theme for tonight has been set as pressing on in our Rehoboth. And I will be bringing you some few instructions that God has brought, which we need to build into tonight, but which as we go ahead in the coming days, we will begin to understand it better by and by.

But because of what God needs to do, we need an unction. You need a fresh unction. Where we have come from, as good as it is, as wonderful as what God has done, where we have entered now requires a fresh unction.

I was surprised when I began to pray and to seek God's face for the year. And the Lord just said something that is very profound. He said, all that I have been saying to you, all that I have said over time, which were prophetic as at that time, their period, their season of fulfillment has come.

That's why those of you that are very sensitive and you are following it, you will notice that God seems to have just spoken to many of you, said, the things I told you before, I'm about to do it now. So, scriptures that God has spoken to you some years back, they came back. They were flashed back to your spirit.

It is not as if God is repeating himself. God is bringing us into a new face. The same word, but a new face, a new facet of his implementation.

But when you come to the new face of implementation, the unction you had before will not be sufficient for where we are now entering. And the things that we had engaged before, they are going to be too small, too narrow for where God is bringing you. And so, every one of us tonight, you will need a fresh unction.

So, if you ask me what's our instruction tonight? Equipment for our fresh assignment. Equipment for the fresh assignment. Equipment for the fresh assignment.

And because God is speaking so deliberately about the kind of thing that he will be doing, which, like I said to you, it can be overwhelming. And you may be afraid to even contemplate it. You may be afraid to speak about it.

You may be wondering whether you are simply just thinking about yourself. But no, it is not you. It is that God wants to move, but we need an equipment for our fresh assignment.

And that's what we are going to be praying about. And there are a few things that are very important as our equipment. And all the six stanzas of this particular song, they outlined it.

They have outlined it. And because I only need to introduce that tonight, when we will be speaking during the visions retreat by God's grace, in order to maximize our level both, in order to make the most of what God has now opened for us, in order for us to press further with the room, with the space, with the divine favor that he has released to us, we will need fresh equipment. And this equipment, I said, the outline is in this hymn.

That's why I put it as an anthem. That's why we tied it today as an anthem. An anthem is not just one song you sing once.

It's a song that you bring back repeatedly every time. Because they are bringing outline of the equipment that is necessary, that is requisite for our fresh assignment. We will speak about what is our fresh assignment.

If I can, I'll just introduce it tonight, so that before you get tired, I will have been done. But when we now begin to sit down at the visions retreat, we will be waiting for God to define for us our fresh assignment at Rehoboth. We are going to be asking God to give us dimensions to it.

And I'm so overwhelmed because what God has said is very, very serious. And my prayer is that God will please help us not to stop what God wants to do. For example, God has said that this is a stream.

It's a river. And this river, even though it starts from the sanctuary, even though it begins in our midst, it will never end with us. This thing that God is doing that your eyes are seeing is bigger than us.

We cannot contain it. And we must not contain it. This morning again He said to me, Don't damn it.

I didn't want to read that to you because I know that you will not fully understand it. But I know God is saying, This thing, don't do what? Damn it. Don't put razor on it.

It is a Nazarite. This move of God itself, God is saying, It is what? It is a Nazarite. You know, when God was going to raise a Sansei, Sansei was one man that God was raising up in order to deliver God's people from the hand of the Philistines finally.

And as the prophecy of His birth was about to come, there has been a lot of oppression in the land. A lot of difficulties. And this boy was going to be born as an answer to that problem.

But God was saying, This young man that I am going to give is going to be a Nazarite. And in my understanding I felt, yes, one man is entering into a Nazarite consecration with God. But it was very overwhelming for me this morning when God now says, Even this move, this move is a Nazarite unto God.

And I see God is saying, You know, it is a very difficult picture to paint to you quickly, but I will do it very shortly. You know God was speaking about a Sansei? But He was speaking to His parents. He was speaking to those that will birth Him.

God was speaking to those through whose womb, through whose loins He will be born. And God was particularly saying to the mother of Sansei, He said, This is going to happen but as soon as you conceive this child, you, yourself, you will not take anything that is wine. Because what I am passing through you is going to be a Nazarite.

What I am allowing you to experience, to carry, is not yours. It is a Nazarite unto God. And so, there are consecrations that you, yourself, you are going to enter, so as not to affect, or derail, or misguide, or misdirect this baby.

And it was so overwhelming that God came again this morning to say, This move of God, this thing that God is breaking forth in our midst, is not our own. It is a Nazarite unto God. This move belongs to God.

This thing that God is about to break forth, is going to be worldwide. We have said that before. It is going to be global.

It is going to take over places. It is going to flow into places. When it begins to happen to you again, you will remember that we have said it.

When God will give us the go-ahead, and you will see kings, potentes, traditional rulers from all tribes, from different parts, conglomerating to take instruction for how to rule their domain on behalf of Christ. So, this thing that God is doing, even though it begins from the sanctuary, it does not belong here. So we cannot, we cannot, we must not bar it.

We must put no laser on it. We must not dam it. We must not in any way hinder it.

It is to take over the kingdom for God. And I am begging God, don't allow any of us to be in the way of what you are about to do. Don't allow any of us to put our razor blade as if to cut it.

But because there is an assignment for me and you in what God is about doing, we need a fresh equipment for the fresh assignment. But as regards what is going to happen, all of you please listen carefully, and I pray that God will give you a large heart. I want you to know, I pray that God will help you to conceive that what God is talking about that has already begun cannot be stopped.

You know the other year, the choir came forward just as we were about finishing and they said, the unstoppable move has begun. Do you remember that? Eh? The unstoppable move has begun. And as we were praying at the beginning of the year 2021, and the Lord now began to open and began to speak about the unstoppable move, unstoppable move, now He came to say, and we have now arrived at Rehoboth.

But before we will be speaking about my own assignment, your own assignment, it is important to note, and I will just tell you some of the things that God is saying will happen before we take that hymn. God has begun to say that what we are saying now, what we are saying before, and what we are saying up to this point, as good as they are, they are wonderful in our eyes, and I can't go for it. But heaven says, it is still very, very small, it is actually the very, very threshold of what we are yet to see.

Hallelujah. Hallelujah. And the only way for me to put it to you was that after Elijah came to the climbers of his ministry, so-called, at Camel, at Mount Camel, you know, when Elijah came to Mount Camel, and he brought all the priests of Baal, and they were all slaughtered, you know, honestly speaking, that was a great walk, have you? That was a great climax.

He had stopped rain for three and a half years, and now he is bringing rain back. And all the prophets of Baal that have been confusing the people, he brought them, and they were slaughtered. Hmm.

That was wonderful. And I was just thinking that what he has done, by the grace of God, is commendable. Isn't it commendable? It's something to say, Praise the Lord! We have never seen it like that.

We have never seen it like that. Never seen it like that. Only for God to confront him.

Especially when he went and sat down under the Jumbo Chair and said, I am the only one left. I cannot do more than my father's. Do you remember what God told him? God said, Arise.

And do what? And eat. Why? Because the journey is what? Is too great for you. I was wondering that he had just come to a good climax.

He has performed a miracle. The prophets of Baal have been slaughtered. And it appears as if the Holy Spirit was saying, But God came and said, The journey is too great for you.

What I planned to make you, you are just at the beginning of it. But unfortunately, my brother could not see it. My brother could not step into the next level.

Brother Elijah continued to think that he can't do more than his father's. He continued to imagine that where he has reached is big enough. That's why the prayer I prayed with you this morning is very important.

That God will enlarge your heart. That God will give you a large heart. Please pray for that.

Pray that God will give you a mind that is limitless. That God will give you capacity to conceive what heaven is about to do. So that we will not damage.

We will not stop it. We will not hinder it. And we will not limit it.

Please take note of the words I am using. I say we will not do what? Dam it. What's the meaning of dam? What do you do to dam a river? Eh? You block it.

You build a kind of wall to constrain it from going to where it is going. Sometimes dam looks useful because you can use it to do fishing. You can use it to irrigate a small farm.

You can use it to do artificial irrigation. But you will have stopped it from getting to where it wants to go. Do not put razor blade on it.

No razor must touch this. Those of you that have understanding, please take note. Those of you that God will use to spearhead the move in different parts of our land, in different parts of nations, several nations, those of you that God is beginning to expose, don't put razor blade on this.

Don't cut it. Don't shave it. Let it grow.

Let it take all the shape that God wants it to take. Let it get out of your hand. Let it break forth.

And I'm telling you it will break forth. It will break forth. This thing, it will take over academics.

A time is coming when it is this matter that will become textbooks, not just in churches. It will become textbooks. It will become books that students are going to be studying.

It's going to become the language. Hallelujah. And some of you are English teachers and you are studying lexis and structure and you are doing all the grammatical forms and all of that.

And it is looking normal. No, no. Presently it's looking abnormal to bring Bible or Bible story and say you are using it to teach English.

They would rather ask you to go and buy one textbook where they are talking of Abdu who converted the sugar to ashes. Eh? Eh? And then they will be talking about one Usman, Taliban, who is looking as if that is what to study in school. It will change.

It will change. Mark it, it will change. And government will be demanding and say please write textbooks for us.

That's why all of you that are here and all of you every training that you are having we will need it. We will need all your training very soon. Praise the Lord.

We will need all the training you have had. You are going to bring it and lay it at the feet of the Lord because the Lord will have need it. But because of what we need we need a fresh equipment for this fresh assignment.

So all I need to do tonight is simply to talk about that fresh equipment for our fresh assignment impressing on in our lehovahs. What I say we are looking at tonight fresh equipment for our fresh assignment impressing on in this lehovah that God is declaring. Other issues we will be discussing as we go ahead.

But let's take that song together quickly. You have been standing and sitting standing and sitting. What do you want to do? Do you want to sit down as we sing it? Eh? You like to stand up? Let's stand up.

Give us O Lord Thine ocean anoint us for Thy work Arise and set us in motion O Lord Again Give us O Lord Thine ocean anoint us for Thy work Arise and set us in motion O Lord Give us O Lord Thine ocean anoint us for Thy work Arise and set us in motion O Lord Give us O Lord Thine ocean Change it and say Give me O Lord your ocean. Now I want you to ask God for it brothers and sisters because as soon as we step out here now a new dimension is coming to you. A new outbreak is coming and you need an ocean for it.

A fresh open door is coming. It's beyond what we have done before. In fact, I'm begging God for that ocean.

I've been pleading with God now because of the demand that is coming because of the increase that is coming because of the souls that will be rushing even at you as an individual you need an ocean. You need an ocean that can cause things to happen. Yesterday or day before yesterday my brothers, I sent them out to Jaws and they were coming back and they were to stay in Lafayette because it was that late.

And then when they entered the office the camp in Lafayette there was a meeting going on and they shouted they said, Sir, are they doing MLA? And the brethren said, No, no, no they are just doing a youth meeting a youth meeting that is just for Lafayette not even for the whole state just a youth meeting and the big hall that we thought we had built is already too small very small if you have ever gone to the Lafayette

and you see their big hall it's already too small people are already sitting outside and that's not for the whole congregation of disciples it's just for youth so can you ever imagine where we are going and it is not happening just in Boko it's not about Brother Gule now are you understanding? it's about what God is doing in Liberia it's breaking forth in U.S. what we have not seen before we are beginning to see in Malawi we are seeing things that we have never seen before in Ghana they are struggling with how do we contain the numbers this is not about us in Tibland we are seeing things that we have not seen before we are seeing a movement of God that nobody could explain say what is happening now, what's happening we cannot explain it we are beginning to see what eyes have not seen what God has spoken about before but you need what? an unction for it that is the cry of my heart for this time this is the prayer I want to pray with you before you go this is what I want you to stand with me over for yourself and say Lord give me O Lord thy unction you need an unction as an equipment for this assignment and this assignment is going to be all involving all of you are going to be involved in fact all of us sitting here we are still too small if I read my own note to you it's overwhelming God said look the number of people that you have seen now all the people that you have seen on your staff and that's already a very big issue don't say they are too small I'm bringing people I'm bringing people and I'm not just bringing ordinary people I'm bringing people who are coming with their crowns and they are going to be laying it down and He says don't hesitate to collect them so we need unction for the next assignment so we are taking that song pray it I don't want you to go into the new year without asking God for unction unction for the year unction for the assignment ahead because it's going to be boomerangy over us there is going to be an explosion we are not going to be able to gather it all because there will be no room, no hall that can contain what God is going to do just mark it but you need an unction you are going to pray with me and say give me oh Lord your unction anoint me for thy work the work that is about breaking forth anoint me for it shall we pick it up give me oh Lord thy unction thank you anoint me what does this mean? what are we asking God for? that God should set you in what? in motion you know there comes a time in a man's life that if you do not push him he has come to the end of his journey naturally he gravitates to a stop that was what brother Elijah was coming to Elijah thought having finished the bar and the men and the demons and all of that you know what he was looking for? what was he looking for? he was planning for retirement so when Jezebel stood up and said be it unto me if I don't give your head to those gods by this time tomorrow you know for a man like Elijah can you imagine such a threat could affect him? eh? can you talk to me? is it not Elijah that went and confronted a king? eh? and stood before him and said the Lord leave it and the man said are you the troubler of Israel? he said no you you and your mothers children you are the troublers of Israel imagine a man talking to king like that and can you imagine that at this point he had disciplined the whole nation for three and a half years nobody got what? and when he declared it oh my God I'm just begging God that you will understand and that the Holy Spirit will move you to walk into this reality do you know when he stood up he said and there shall be no dew there shall be no rain until I say so and he went away and because until I say so nobody could find water nobody could find rain they did all they know how to do they went everywhere no way even when they went to their demons their demons said there is only one man that can reverse this matter they said who is that man they said it's Elijah they said look for him so they put a price tag on him nobody could find him and I'm telling you where did he go? where did he go? where they were looking for him he was by a brook, chariot when God is keeping you he may keep you even at the doormats of your enemy and they will never see you are you understanding? they were ransacking him everywhere where he was by the brook what was he eating? God commanded birds to bring food for him that's a man of God and when it is time God said go and go to Sars and he went there how can he such a man of God come up now and Elijah, Elijah was running in front of a woman let me ask you do you know what has happened to him? what has happened to him? something died in his heart something finished actually he thought he

has finished so when Jezebel opened up her mouth let me just die safe let me just die safe I'm tired what did God need to do to Elijah? he needed to set him what? in motion God needed to mobilize him afresh and say stand up your journey remains and that was what God came to do to him he was planning to die he was like I cannot do more than my father the angel came and tapped him he said stand up eat the journey before you is too great it's not time yet you can't die now you are not dying now hallelujah you are not dying now is anybody hearing me? you are not dying now it's not time to die you are not dying what you have not done is too big compared to what you have done don't let anybody begin to make an adversity for you as if you have come to the end of your journey no there is nothing yet we can celebrate with peace I say to all of you are you hearing me? this thing is looking big in your eyes the last time God said you haven't seen anything yet and you know when I used to say that some years ago what is he talking about? what is he talking about? and you suddenly woke up and you saw what I was talking about God is saying even all these things you haven't seen anything yet God set me in motion I say to you are you begging God to set you in motion? eh? you can't retire now or you want to retire now eh? what have you done in life that you are retiring upon? I want to ask you what have you done in life that you can retire on? talk to me the reason why you were born and the reason why you are preserved the reason why God has kept you inside this thing over the years is just about to begin you are just about entering into something that the whole heavens have been waiting for you for so you are going to take that song sing that stanza one I am not moving you to stanza two yet because each of them is an equipping give me O Lord thy notion anoint me for thy will O Lord arise arise and set me in motion O Lord O Lord now I pray just ask God for that first Lord equip me for my new assignment equip me O God sharpen me for my next assignment give me unction for this fresh fresh fresh lehubos unction all of you that are hearing me tonight for this morning you need fresh unction for the fresh assignment for which you were born and born again all that you have done for years is only a preparation God has only trained you time to achieve the purpose of God praying in Jesus name we are praying brethren you know why I wanted to pray I just wanted to pray I wanted to pray two things what I am praying for you to pray please listen is not length of years is not length of years what we spent twenty years to prepare for did you see that in the last one year God was doing in one year beyond what we did in twenty years have you noticed that that will characterize the future that will be the characteristic nature of this next assignment so that's why even those of you that look young and maybe in your mind you are saying well I am still young when I become like brother Agbile I will do something I want to inform you your season is not like mine the season in which you were born you were born at the time of a barley harvest I was born when we were tilling the ground I was born and thank God who kept me who kept us to keep holding for the promise to keep believing God for the word of God we learnt many things over and over and over and over and over again and it looks as if God was delaying because the time set by God had not come so I want you to hear me some person may be telling you we took twenty years we took twenty years to become something for God why are you thinking you can take two years to become something don't listen to them they don't know your season they don't understand your season they don't understand they don't know that we have come into a season where a little one a little one will be sufficient to chase thousands we have come to a season when one message there were great messages before we will preach it it will bring ten souls it will bring twenty souls and we will spend years to follow up twenty souls and by God's grace maybe ten of them are standing ten have gone back it's not going to be like that now please hear me very well if God gives us one thousand one thousand will stand and don't be overwhelmed that I just spoke once and three hundred people came out and three hundred are still coming and three hundred are not going back home even your training will be different even your exposure God has told me that our young, the youth they will be grown up in their youth you know some of us we are grown up in our old age ah? oh my God, did you hear what I'm saying?

some of you have now become matured after many years have passed but God is doing a different thing now so I want you to know that the kind of experience you'll be having that will force you to live by faith it will make you to step into things that you don't expect you are going to attempt things that you would think that only the ancients can attempt and God will say but I put you here to do it that's why I want you to join me I want God to give you unction I want the young people here to say give me oh Lord your unction set me in motion anoint me for your work the dimension that we have reached now can no longer can no longer we can't keep it can't keep it and this is going to be happening in different places in different nations simultaneously that's how it will be happening so join me for this last time to say give me oh Lord thy unction a fresh equipping for my fresh next assignment so that this Rehoboth might actually be maximized join me to ask God I'm asking God for that give me oh Lord thy unction anoint me anoint me for thy work set me Lord arise arise set me in motion oh Lord Emmanuel now as we pray that prayer now what does it mean to set somebody in motion I know it and I will describe it to you so that your prayer can be meaningful when I stopped riding bicycle when I stopped riding bicycle there was not yet motorcycle there was something we call mobile mobile mobile does not have it doesn't use for it's a kind of mechanical thing and what you do is that when you want to start your mobile you're whining whining whining and then once you kick off you just keep whining and you keep moving the only thing that can make it slow down is when you are climbing a big hill and if you are careless then the thing will stop then you whine it again until you kick off again that's how you set mobiles in motion are you understanding there are some mobiles here that they will be whining they whine whine whine but you know it's taken when we did not have mobiles again that we now have a motorbike and there are motorbikes that you like what are you doing you are trying to kick it you kick it that was better than mobiles because mobiles you have to do this do this and push and push and then when the thing jump if you don't jump on top of it but when we now got motorbike you just kick like this and as you kick do like this that was something you kick then you move to another level of bike that one is when they brought on the Bentley 195 in those days then it has a key you just come just put your key on it then the thing will just answer like a car and then you move there are all different vehicles how to set them in motion you are the one who knows which one you are you understand you are the one who knows what kind of vehicle you are as I am talking now so ask God to pray that kind of prayer set me in motion whether you are going to whine me whine me whine me and release me go ahead oh God whether you are going to kick me and kick me until I ignite that's alright or if you are going to bring an ignition key to ignite my life and set me in motion I can't go back on the same velocity in which I travelled in 2021 in the name of Jesus Christ are you praying right now arise and set me in motion oh Lord the man of war give me oh Lord the notion arise me for your will arise and set me in motion thank you Jesus oh Lord Jesus come on go ahead go ahead and pray that prayer I am not going to stop you again pray you know whether you are a mobilet whether you are an ordinary bicycle or you are a motorbike or you are the one that can be ignited oh my God or you are the one that we have to engage the gear or the one we are going to push so that it could start or you are the one that they don't even have gear again you just come in and press a button and the thing is moving Lord set me in motion tonight I can't go back on my old speech I am not going back on my old velocity I am not going back the way I used to move Father set me in motion for my next assignment set me in motion oh God set me in motion by your spirit set me in motion oh God set me in motion oh God some of you are demobilized God must remobilize you tonight this morning you need fresh equipment for your assignment in life 2022 cannot be on the same speed as we move to 2021 the season have changed the season have changed young men the season have changed your discipleship classes have changed what took 10 years to do will not take 10 months and it will be genuine it will be deep it will be pure it will not be a contamination it will not be a reduction set me in motion set me in motion Lord set me in motion Lord set my heart in motion set the

entire of my life in motion set this work that you are doing in my life set it in motion from this night in the name of Jesus oh my God oh my God hey oh my God in Jesus name we are praying what again does it take to set something in motion and if any of you is here and you are a scientist you know what we call momentum and you know that when you want to release a projectile or you want to shoot a rocket the biggest thing you must give it was initial momentum once you release an initial momentum for it is as if you have primed it different language is used you either prime it just prime it or you give it a momentum that gives it an initial velocity that is not just trying to build it's not building it it's not building it from zero it is giving an initial momentum with which it kicks off and from there it never comes down again ask God set me in motion create a momentum for me an initial velocity that does not emanate from my gradual growth that comes as a divine impartation did you hear what I'm begging God to do for me? Lord, give me an initial momentum that comes by divine impartation on which I can build on which I can rise on which I can increase are you asking God for that? if you wait for God to start you from zero you know yourself you know how long it takes you to warm up don't you know yourself? you know that the procrastination that has ruined your life for many years how I will start it? oh, I will write oh, I will do something oh, I need to, I need to and you need to, you need to two months you have not done it I need to, in fact, I have to do that thing you started writing an article three months ago you have not finished it when you go near it instead of writing you are yearning tomorrow I will come again tomorrow will be another tomorrow another tomorrow, another tomorrow do you know what you needed? what do you need? initial momentum God must give a momentum to set you up so that you just break out and they say, how did you begin? you say, I don't know, God just broke me up can you ask God for that? eh? how many of you have lacked momentum? you have an idea but you have no momentum to get into it let me see your hand up so that I better pray that for you now you know that there is something you should have stood up to do but no momentum procrastination you want to start something you just say, wait first and so many ideas are in your heart I can see you are a bundle of ideas none of it has come to table because no momentum to start let's ask God today set me in motion for this assignment this thing that I have to do in my lifetime this thing that I have to happen at this time in this travel bus release a momentum for it that as soon as we leave this meeting this morning there is a momentum to run there is something that makes you run and they say, are you a Jehu? are you a Jehu? are you a Jehu? you say, well I can't stop again I can't stop again I can't stop again I can't even sleep now I just have to finish that thing now Lord, release a momentum make these brothers fresh fresh launch launch them forth shoot them out of God momentum to break forth how many of you have been procrastinating something to do let it perish now let it finish now say, Father, I'm taking a fresh momentum I know what I ought to do I know the things that you have been saying to me I know where I should have gone I know how I should have gone there but there is no strength the children have been brought to the place of birth but there is no strength to push that's what we are asking God to give you strength to push strength to bring forth strength to bring it out let it not die in my stomach strength, strength oh God to push strength, strength Lord, strength to push are you asking God for that momentum arise and set me in motion oh Lord you are the man of war give me, oh Lord thy notion anoint me for thy will and arise and set me in motion oh Lord, you are the man in the name of Jesus do you remember that God did something to Nehemiah how many of you remember what God did to Nehemiah that set him in motion do you remember he had been in the palace eating and serving the king of the earth forgetting the reason why he was born for one day while he was sitting in the palace people went home and they brought news they brought news your father Sepulcher had destroyed the wall of Jerusalem all the people had died when the news came could that brother sleep again what happened to him something happened something took place he couldn't sleep he couldn't eat he entered into fasting nobody organized for him did you hear what I am talking about some of you are going to enter into fasting not organized fasting it will

be because a momentum has come upon you you can no longer sleep and say oh God he prayed and prayed and prayed and prayed he didn't know that he was losing weight he didn't know that his countenance has changed he didn't know that he became like a sick man so when he went on duty he was just on duty he thought he was properly dressed as he was serving the king and the man looked at him and said Nehemiah what is the problem he said no problem he said you have not looked nice like this it looks as if you are sick and the man said I know this is not a bodily sickness it is the sickness of the heart any problem can you imagine he did not plan to discuss that thing that day did he plan eh he was just going for his duty even though he prayed Lord remember your people forgive us and all of that but he didn't know that there is another dimension to that prayer when God set a man in motion who can stop him again this prayer is critical for me today as soon as he got there the king looked at him and said so what do you want ah can you imagine what do you want he was put on the spot he was made to think immediately he said he prayed he said oh God oh God please tell me what to tell the man he said if the king would be pleased to send me back to Jerusalem I am going to rebuild the wall one man not a committee yet I am going back to rebuild that wall so the king said ok for what do you make request ah he did not know that that discussion would reach that morning am I communicating so what do you need what request do you make then he began to think and then the king said tell us when are you coming back how long will it take him ah let me ask you was Nehemiah thinking of doing that eh some of you are thinking of something you will do for God and I see how you are sitting down planning it arranging it arranging it you have been arranging for 10 years your arrangement has not seen the light of day you need unction you need a divine push you need fire can I tell you what happened that day could Nehemiah return back home eh you know that from that moment the king said set us a date when are you leaving I am writing a letter now to all the governors everywhere to open door for you if you need timber they will give you timber if you need this they will give you this if you need that you can go did you say you are coming back in 2 months time he said yes ah ok go your leave of absence approved go and build that wall if anybody stop you tell them I sent you you can go do that again I just you know I know you are reading Bible but you don't read it in context I know you are praying for revival some of you think that this revival remember when time comes it will still take 30 years of us gathering momentum oh can you imagine even though prophecy has said 70 year captivity but when the time came the brothers that were used they were accelerated eh I can't imagine how Nehemiah left that office that day and he went home and said oh the king has said I can go I have told him that I am going to build the wall I never thought I could go and do the wall by myself but now the king said I should go I have given him the bill of quantities and eh he said whatever else I need I can be good I don't have committee to work with I must go must go how many of them left it's him alone it's him alone because when he got there in fact he said he went around he had not told anybody what is in his heart when he checked and checked and checked then gathered them now told them did you see what has happened I have come to build let us rise up and build he said can we build he said we will build he spoke a word and he didn't know there are people already waiting waiting waiting waiting oh my god when you read chapter 3 of Nehemiah you see how many people were waiting already waiting just waiting for Nehemiah to be ignited then they will rise up is there somebody here that people have been told to wait for you for you as they are postponing your journey this night they are saying oh god what you did to Nehemiah it was as if he was hurried into the work am I right lord hurry me you know I have never asked you to pray such prayer before your prayers before I used to tell you to pray before is lord help me to wait but now at Lehigh lord do what hurry me hurry me that's the next prayer Chris are you praying that prayer lord hurry me my years are finishing hurry me into my call hurry me into that which I must complete for you eh hurry me hurry me into it make it impossible for me to do otherwise set me oh lord in motion oh lord you are the man of war set me oh god in motion thank you father so in Jesus name we have prayed

lord I pray this need is overwhelming and we please this money for this fresh opening for this room that you have made for us for this Lehigh not to be a waste give us your puncture release an initial momentum for several of our lives as you hurried Nehemiah so that the divine covenant will not fail because you already set a time 70 years by 70 years it has to happen lord what must happen now we must not postpone it in the name of Jesus Christ what must happen oh god in our nations what must happen now lord in our states it must not be postponed again in the name of Jesus Christ lord I'm asking you because there is a set time oh my god did you not say in Psalm 103 said the set time the set time has come when the set time comes you set men into action when the set time comes oh god you set men you give them momentum you hurry them into the work you cause them to be ready for your assignment we beg you tonight lord we know we sense in our spirit that there is no other thing to wait for this is the time of our visitation this is the time that you have said Lehigh has come set us in motion set us oh god hurry us into this matter in the name of Jesus Christ everywhere father let it be so everywhere lord I just want to tell you the time you have set for a place like Liberia and sometimes we don't have hands sometimes we don't have hands this night oh god set your people in motion even those that we thought are not mature there is a way oh god in which you anoint men you pour into them the wisdom of the aged and when they open their mouth nobody could resist their wisdom do it now do it in this land do it in all the local governments father I am asking you do it oh god everywhere in Edoma land do it for us lord now in Jukun land in Kuteb land in Egon land in Madal land oh god do it in the name of Jesus Christ do it oh god from one nation to another lord I ask you do it for us in Malawi ha oh god I got a letter 2 days ago or 3 the doors have opened in a nation and one of them wrote and said everything has opened and we are not equal to undo it can I come for 3 months just for something to happen to my life originally I would have said what can you get in 3 months what we got in 30 years how do you live for 3 months go and sit down but lord lord what you did in our last 30 years who said you cannot do it in few months and it will be deep it will be genuine it will be authentic if it is the hand of god doing it lord accelerate your work accelerate our growth accelerate our training accelerate our leadership development accelerate oh god our skills development accelerate your people oh god in the name of Jesus Christ that our youth may be grown up while they are still young they may be mature to undo things while they are still young please do it for us thank you thank you thank you for you will do it in Jesus Christ name we have prayed amen now are you still alive eh some people said it's alright if you are on fire there is a problem if you stay with somebody who is on fire you cannot be tired because tire and fire they don't go together am I correct fire and tire in fact if you are sleeping here now and there is fire outbreak somewhere there and you say fire what is going to happen what will happen to your sleep what will happen to your tiredness it will just go in fact you will not know how you jump from here to there you say how did I how did I climb that place you don't need to know how you climb anything there is an innate potential that is waiting for fire that is the next prayer the next stanza is fire are you ready look at it it said baptize us Lord with what with thy fire set our souls aflame to burn to burn and to shine for thy cause revive your zeal in us is it a prayer to pray eh I want you to know that it is an equipment it is an equipment when I began to wait on God and God said you need an equipment for the next phase of this assignment I said but I have been speaking in tongues you are not talking about that I said but you say you have made me a new sharp threshing instrument he said yes in a sense but for this assignment I now need to make you into I need to there is a transformation that will take place in your life now for your next assignment and it is a transformation from the degree in which you used to be you know I am reading scriptures but because I am not asking you to open scriptures that is why you are thinking you say you are reading scriptures yes I am I am reading scriptures now 2 Corinthians 3 says and we all with what we convey faith beholding the glory of the Lord in a mirror we have been what changed we have been transformed from one degree there is a degree where we have

come before and brother Paul said the degree to which we have reached but there is another degree we are coming this night I want to start that prayer with you baptize me Lord with thy fire what will fire do? excuse me what will fire do? fire will burn it will burn you there is nobody who can carry fire in his bosom and he can see that I used to describe to you when I saw a man who fell into fire you know the picture has never left me and it is for more than 30 years now I was in Kasanada I was driving my B2 out they were just doing that bridge that Kasanada bridge they were still working on it at that time and then they were pouring kota and I don't know what has happened that this man whether he didn't know that B2 men that they are using is very hot I don't know how he just found himself he fell into the thing and the whole of his body from here down killed he became white now me a gentle lecturer that I was as I was coming this man did not take permission from me he did not beg me he just opened my B2 and jumped asked me to fire fire fire he was commanding me as if he was the owner of the car what could I do I couldn't do otherwise I didn't know how I turned that kind of turning you don't think I just turned and I was running to Agande I was running did I know whether machine hired on the road or not a man's child will not let me rest you need a man on fire to change your momentum in life if you don't want fire just pray for your neighbor set him on fire and let him make me uncomfortable it's the same but I wish you are the one who cut your own fire by yourself so we go to the hospital you know the gate men gate men that I used to be lazy like the man said fire so you know as he shouted and he was doing like this the gate man could not do anything just so when we got to the OPD there's no need to feel a cut you feel cut when you are not on fire I'm telling you all the doctors they are here if you see a man who is coming in emergency on fire you ask him to feel a cut no no no no all protocols are broken all protocols are broken they can feel form later not fire fire everybody was moving we are moving before I knew it five minutes they are taking him they are now treating him can nurses be so fast like this everything was so fast fast fast fast fast when fire comes everything changes as soon as we got there I want to inform you the man didn't thank me he had no decorum to say thank you you see you need to be gentle before you can keep all those logistics thank you sir sit down here sir once he jumped out of my car he went straight he was to stop the next person nobody checked nobody said thank you sir I just when I knew that it was now said to him and I told my car I said they ruined my journey fire will distort your journey fire will change your direction fire fire will change the momentum of the meeting if fire falls down here now all this thing we are doing all this fire fire now we want to ask God for fire and where can we ask God for fire Jesus said John the Baptist said I baptize you with water water is good water is water but as someone is coming behind me who will do what who will baptize you with what no you didn't read your Bible very well he will baptize you with what with the Holy Ghost and with fire some of us who are baptized with the Holy Ghost but we miss the fire imagine that some of you say you are filled with the Holy Spirit you came for baptism in the Holy Spirit you spoke in tongues and then you finish and you went home just like that and somebody glared and said I got it I got it aah isn't that sweet I got it that's all it didn't change anything I thank you He didn't get the fire. He needs fire. Let me ask again, so that I'm not presumptuous.

Who thinks he needs fire in this meeting? Fire. Fire that will not let you set free again. My brother, you are too old to be wasting your years like this.

I see you talking the same thing over and over again. You must stop after this meeting. Baptize me, Lord, with Thy fire.

And set my soul aflame. Lord, and shine for evermore. Set my soul aflame.

To burn. Cause me to burn. And to shine for Thy cause.

I want you and me to pray that prayer this morning before we leave. Cause me to burn. One thing that happened to John the Baptist was what? A belly and a shining light.

No wonder in six months, he had made everywhere uncomfortable. Now, for this assignment, we need fire. Excuse me, it is not the kind of fire I see them calling in your church.

Holy Ghost! That's not what we are talking about. Don't call that kind of fire here. That is a song.

You hear me? That's a song. Whenever the man talks up, they say, Holy Ghost! Fire. When they talk, talk, talk, talk about their enemy, they say, Holy Ghost! That's all.

We don't need that. That's an aberration. You need fire.

Fire to do what? To burn. Who is going to burn? It's me. It's me to burn.

And to shine for His cause. To revive His zeal. That's a zeal that I'm begging God to release now.

Since we entered Rehoboth, I have seen that, Something must happen now. Join me to ask God. Arise.

Set my soul aflame. To burn. And to shine for Your cause.

Revive Your zeal in me. Let's pray together. Lift up your hands.

And lift up your voice. And say, Oh God, that I be loved with high fire. And set my soul aflame.

To burn. And shine for Your cause. Revive Your zeal in me.

Oh my God. With high fire. With high fire.

And set my soul. My soul aflame. Oh my God.

I want to burn. I want to burn. I need to burn now, Lord Jesus.

I need to become aflame. One more time. One more time.

Baptize me, Lord. With high fire. With high fire.

And set my soul aflame. To burn. And shine for Your cause.

Revive Your zeal in me. Now lift up your voice. Lift up your heart.

Lift up your hand. Beg God for it. Beg God, Lord.

My zeal was dying out. My zeal for souls. My zeal for the work of God.

My zeal to see the move of God. My zeal to change my generation. My zeal to cause things to happen.

My zeal for the youth. My zeal for children. My zeal is dying.

For this assignment. For this report. Set me on fire.

To burn. And to shine. For Thy cause.

Do you know that fire? If I land on you in the U.S. It will make a difference. If I break out for us in Belize, it will make a difference. If I break out in Malawi.

By God, something will change. If there is an outbreak of fire in Zimbabwe. In South Africa, in Cape Town.

How? Something will happen. Some of us were a product of fire before. But fire has died.

Set us. Set us ablaze. Set my soul ablaze.

Sister. You know your spirit has died. You are stealing.

You are just now a regular routine brother. A routine sister. Nothing is burning again.

Tell God. Tell God. Set me on fire.

For this assignment. I need fire. Fire is an equipment for a serious assignment.

Fire that burns a man. Fire that makes him restless. Fire that doesn't allow him to sleep.

Fire in his bones. Kill him. In Jesus name we are praying.

I want you to please. Don't worry. This prayer you are praying with me.

God will answer it. The reason is because it is an equipment. For this phase of our work.

If God declares irrevocable. He gave us room. Churches are ready.

Denominations are coming. But you have no fire. No fire.

It will be a waste. It will be a waste. There are two people that I read their biographies.

And incidentally. Even though different biographers. They gave them the same title.

The first man I read. I read. Idahosa.

And they said. Fire in his bones. That was what the title of his biography.

What is it that struck me? Please hear me very well. You may not like Idahosa for whatever. But you cannot deny that he is a man on fire.

The reason why they are affected everywhere. Even with their doctrine. Is because of fire.

A man that has a message to pray that has no fire. The message will die in his stomach. That's why I am begging God now.

We know. For example. We know that the new Christian man.

Is the only way out to deliver people from their problem. Am I right? But when you have no fire. To drive it.

Will you go house to house? No fire. You won't compare anybody and say. I want you to go through this message.

I want you to go through this series. I want us to pray together. You must get a breakthrough.

When there is no fire. You just say. Okay.

I have one message for you. And then you give him. Three months.

You have not gone to check. Did you listen? No fire. No fire.

Fire is not in you anymore. They told me. I read.

The Daousa was a man of fire. The first thing I saw was that. He went to a Bible school.

In US. He was over there for three years. After one year.

They couldn't keep him. After one year. They fire him.

They can't allow him to stay in that cold region. In front of all the principals of the school. What they said that.

We can't keep this man. His fire is too much. He is burning.

He went and told the school. Release me. I don't need all these things.

To affect my people in Africa. Release me. I am going home.

He came back. Without completing that degree. You will not know.

Fire. Fire makes for your incompleteness of certificate. If a man has fire.

Nobody has a certificate. Am I right? Beg God for fire. Now another man.

I read again. Oswald J. Smith. Some of you have read Oswald J. Smith before.

One of his books. One of his books that I know you will not forget. His Passion for Souls.

And then. There is that book he wrote on quiet time. Just forgot the title now.

It was one of his best books. Not big. Fire.

So I was wondering whenever I read any of this man's Oswald J. Smith's book. It makes me restless. I read one of his books and I found myself just checking everywhere.

I am just looking for a soul to win for Christ. Because the man said you are a wicked man. You see a soul going to hell and you did not talk to him.

What are you greeting him about? So I was eager until I caught his book. The biography of his life. Fire in his bones.

Then I also knew that that was a man that cannot sit down. He started a walk in Toronto. They call it people's church or something.

It was moving everywhere. Because there is fire. No matter the gift you have.

Your gift will be like a lead. When there is no fire. Fire is what drives your gift to become useful to people.

You may have good language. No fire. Good message.

No fire. Huh? No fire. That's why what you have is settled inside your stomach like lead.

You are just becoming heavy. Huh? Some of you are very heavy. You are heavy.

You are heavy down here. Very heavy. What do you need? It's fire.

I want you to pray. Because where we have reached now cannot condone fireless people. Let's understand this now.

The next phase of this move cannot allow fireless people. You see? Thank God. Great organization.

But where you have great organization, there is no fire. It just becomes a dead organogram. What ought to be an organism sprouting, sprouting, growing, shooting forth, shooting forth will just become an RNG because there is no fire.

Where we have reached now in the move of God requires individuals of us to be what? To be set ablaze. And if you are listening to me from any part of any country, anywhere, even if you are five people there, even if you are ten, even if you are not more than you and your wife, just ask God for this one matter tonight. What is that? Fire.

Set us on fire. You will report back by the grace of God in another three months what God has done. If this prayer is answered tonight, three months will be too long for people to hear about you.

Let's go on. Let's go on to say, Lord, baptize me, Lord, with Thy fire and set my soul ablaze to burn and shall die by Thy mercy. Let's go on.

Let's go on. Stand before God. You can walk about.

You can cry with it. You can tell God, I need fire. Some of you, you are full of Bible knowledge.

No fire. And let not our Bible study outline become like lead. Like lead.

Heavy. Heavy. No fire to drive it.

And look at books. We have good books. Good books that will set me on fire.

But when the man who is carrying it has no fire, he becomes dead. Pray, Lord, set me on fire. The next phase of this ministry requires fire.

The next level that God is asking us to get to now is required fire. For revival. But it needs fire.

We need fire. I need brothers who will come from different locations. You will see that what God has said.

I've opened the door. No man can shut. There is only one lock.

The lock of fire. We keep the door until it will be locked again. It will make the place dry.

Because there is no fire. Lord, set me on fire. Set us, Lord, ablaze.

To burn and to shine for your cause. Lord, parakashandoroboskuria. Likarumasambaramaji.

Can you imagine how long I've been standing here? And I'm not tired. Eh? They're saying 50 minutes. One hour.

Whatever you want to do, do it now. If anything happens, it happens. If it doesn't happen, your own time has finished.

Is that what we want to end with? Or we need something to do something to our lives? Do you see our need? Eh? I'm asking you, did you see our need? How are we going to stand here? And people's words will be tearing people's hearts in far away, far away Swaziland. And it will be as real as if we are there with them. We need something else.

We need something that make men to forget that the screen is what they are seeing. Because I knew we have gone for meetings before where we're speaking and you literally came down and several of you said, we didn't see you again. We didn't see you again.

We didn't see you again. In fact, I was looking and didn't see you again. I just saw Jesus pointing to me and said, you, you are a sinner.

And he was pulling something from my heart. And I couldn't keep quiet. That's why I ran out.

And as I sat down there and somebody just came and slapped me and said, you like this, you are too stubborn. Go and repent. That's why I ran out.

Can we still experience that? I'm asking. Eh? Can God still do it? Do you want God to do it? Eh? Do you want God not to allow this to be one routine that just as our brothers and sisters are testifying here and there all over the world that something has happened, can we pray that it not just be a peripheral superficial thing? Give us, O Lord. So that's next prayer which I ask you to do that is the combination the refiner's fire and the fuller's soap.

The fire that refines, that takes away the dross. The fire that cleanses things like silver and gold different from what ordinary soap and water can do. And I saw that if God will make us sharp instrument for God, this thing has to be happening to our lives, we must be sharpened.

Our thought must be sharpened. Our nature must be transformed. The glory of God must be made manifest.

People must see not us for Christ for what God wants to do in this next segment to take place. Would you like us to agree together? To say Lord, refine us Lord and cleanse us. Clothe us in your holiness.

Transform our thoughts and our nature until your glory begins to manifest everywhere we stand. Would you like to ask God for that? You see, these are equipment for our assignment. These are the issues that God is saying ask me for it.

Ask me to do it in your life. Because the next phase of this work we need that. So, you're going to now pray this.

Refine me Lord. And I know that that refining only comes by fire. Eh? The fuller soap we wash what the fire has melted.

But where fire has not worked there's nothing for soap to wash off. So, as we stand together to say Lord refine me Lord and cleanse me. Clothe us in your holiness.

Because the next phase of this work will require the presence of God that manifests God's glory that brings conviction to the heart of man. Conversion to the heart of man. And we don't have to stand, talk, talk, talk, talk for too long.

The Lord will be cutting His work short in righteousness. Do you have that kind of cry that you want us to cry together before we release ourselves into the air today? Eh? Eh? Have you ever seen that there is a need for us now? Eh? That we have a need. We have a need now.

We have a need now. We have a need of a divine refining. A cleansing that imposes the glory of God on the faces of men.

Even when they are just watching a message or they are just listening or we are just doing a Bible study. That something will happen that we will begin to record unprecedented convictions and conversions. Thank God that numbers have increased.

Numbers of disciples and all of that, they are increasing. But let it not be an ordinary spread that has no depth. Can we ask God for that equipping? And it must happen because stepping out from this meeting, we are stepping to Rehoboth.

We are stepping to a large room. And believe you me, by the grace of God, you will see God opening large room for you. But to do what if there is no fire? To do what if your offering is not the kind that can produce the kind of result that God is looking for.

Are we not just going to popularize and immunize people without a deep conviction? So you will join me again. It is an equipping for this assignment. That is why I said this song is not just a hymn.

We have decided to make it an anthem to sing, to pray with, to ask God at every stage, Lord, refine me and cleanse me. Transform my thoughts and my nature. Praise the Lord.

Praise the Lord. So at this point, you will let us stand to sing the song. We sing two and three together and you are singing it again to yourself and you are saying Lord, breaking forth into the 2022 as you have brought me as a student here on campus, I knew when God released fire on our own campus many, many years ago, I knew what happened.

And I knew what happened to people like ourselves. And you can go on campus now and say there are many, many fellowships. No, no, no.

Ask God for fire. Are we ready? I know the brothers are tired, but since I am not tired, I will be singing until they join me. Cecilia, thank you.

All right. Yes. Baptize me, Lord, with thy fire and set my soul aflame to burn and shine for thy cause.

Revive your name in me. Refine me, Lord, and cleanse me. Take me in holiness.

O Lord, transform me. Revive your glory. me.

Baptize me, Lord, with thy fire and set my soul aflame. O Lord, to burn and shine for thy cause. Cleanse me.

Again, I want to ask you, don't stand on one spot now. Just walk before God. Just take a step before God and say, God, we have come to a point.

The children have come to the place of birth. There's great eagerness. There's a great open door, which it is God that has opened it himself with our offering.

If it's not acceptable, if it is not effective, if our service is not the kind that can create effect, the door will still be wasted. So I want you to please pray and say, Lord, what we make our lives to sharply affect men, what we make your glory to show, what we hook heart of men and convict them, do it to us. Equip us now, Lord.

I want all of you to beg God that this year, conviction, conviction of sin, conviction of righteousness, conviction of the judgment of God that is done by the Holy Ghost, when it has flowed in our lives, let it increase. Let it increase. Pray that conversion will become a regular and a permanent feature in what God is doing with us.

We have experienced it in a little measure, but God has brought us now onto that wider space. Please pray and say, Lord, refine me, Lord, and cleanse me. Clothe me in your holiness.

Transform my thought and my nature unto your glory begins to beam out of my life. Unto men are confronted with God's glory. Unto hearts of men are subdued because they have seen God.

Please pray and say, Lord, this equipping for our assignments, this equipping for this next phase, everything that God has said, He said, I have said it and I will do it. All the passages, all the messages that we have received, we know God is already rising. He's already blowing a trumpet about His coming, about His manifestation.

But He said, these men that are plucked out of fire, I'm ready to prepare them yet. I'm sitting as a refiner's fire and as a fuller's soap. Can you plead with God, Lord, working allies, just do something with us that will be beyond our own explanation.

We are now discovering that we need something more than physical physical arrangement, physical program, physical touch. We need a divine transmission that transmits Christ's life, transmits His power, transmits His authority in the lives of men even as they are hearing us. And for several of you in different countries, you can see that you are also going online.

God is beginning to use you to do deep things. Ask God, refine me. Refine me, O God.

Sharpen my life again. Make me your new sharp-threshing instrument. Make me your back-to-ass.

Sharpened in your furnace. Sharpened in your furnace and washed with the fuller's soap. Lord, Lord, Lord, Lord, Lord, Lord, Lord, Lord, Lord, Lord, Lord, Lord, Lord, Lord, Lord, Father, equip them in Ghana.

Equip them, Lord, in Republic of Benin. Equip them in Togo, Cote d'Ivoire, Guinea, Senegal, Mali. Lord, equip them, equip them, O God.

We are needing the help now. We can't just go on popularizing issues. Equip them in the UK.

Equip them, O God, equip them, O God, in Europe. Equip them, equip our team in Italy. Please, Lord, equip them, equip them with this.

The refiner's fire and the fuller's soap. We are asking for two issues now. The refiner's fire that refines our thoughts, that changes our lives, that causes the glory of God to show forth in our lives.

And the fuller's soap that dissolves every stain. Please ask God for that. Ask God that, Lord, do it for us.

Equip us. Look at all the nations. Look at the nations.

At MLR, we are told of the many, many nations that were connecting. Some that we identified that were sitting in centers, and yet so many that just went on Facebook on their own. Please ask God.

We need something more than what we had before. We need the power of God to convince Him to change men. We need, Lord, our faces to convey the glory of God.

Please ask God for that. Ask God that in all the centers, all the places, let God do something like this. Let God Himself preserve this world from being a mere routine, from becoming a mere thing.

Please pray that all the materials will not become a mere thing. Father, refine us. Cleanse us.

Transform our thoughts and nature. Cause your glory to begin to show forth that where we go individually, those that are evangelists of God among us, those of God who have given special ministries in different ways, bring them into effectiveness. Cause us, O God, to become effective vessels.

Sharp, sharp instruments that can trench the mountains. Sharp instruments, O God, that can bring hills and beat them as mere dust. Sharp instruments, O God, that will set us, O God, to draw men irresistibly into the purpose of God.

Thank you. Lord, we ask you to help us. Can I now ask you to now let's finish the song.

We just finished the song. We will be holding God's hand for the rest part of it when we have opportunity. So we take standard 2, standard 3, standard 4. I have jumped several.

But this verse 6, if any of you have been sensitive, you will know that God said, and we have been holding God's hand for this time. Since the beginning of 2019 into 2020 up to 2021, God has said very clearly that one critical weapon that will drive this move will be prayer. Concerted prayer, consistent prayer, devoted prayer.

So we will devote ourselves to prayer and to the ministry of the world. I just want you to pray one prayer and I will be stopping now. Lord, help me to pray.

Is that a prayer to pray? Eh? Is it a request to ask God? Lord, help me to pray. You see, when God has a man to pray, things change. When the Holy Spirit begins to help you in the place of prayer, something will change.

Please, I'm not asking you to say, Lord, teach me how to preach on prayer. There are many, many messages on prayer. It's not equal to praying.

There are many, many, many, many, many organizations for prayer, but it's not praying. And I want to tell you that the next segment of this move, what will drive it deep is prayer. So I want us to agree with me.

Help us to pray. Can you pray a simple prayer like that? Lord, help me to pray. Help me, oh God, to pray.

Some of you may not know that prayer is not as simple until you want to pray. Then you know that prayer is a warfare. The devil does not mind if we are preaching, but the devil is offended and annoyed when he sees us talking less and praying more.

Satan trembles when he sees that we have turned to prayer. Please pray. Lord, this year help me to pray.

This year, Lord, help me to pray. Not to talk about prayer, not to preach about prayer, but to pray. Help me to pray.

All of you that understood and understood all I've been saying this morning, please lift up your right hand to God. Prayer looks simple, but prayer is a difficult work. Prayer is a work.

If I must tell you, prayer is the work. It's clear to me now, more and more, more and more, that if I will spend more time to pray, I'll see greater results. If I will withdraw from many other things and just devote myself to be indoors with God, I'll see more results.

Lord, help me to pray. Lift up your right hand to God and say, Lord, I'm in need. I am in need.

I'm in need. Lord, I'm in need. This extent to which you want to move now.

So while you are lifting up your right hand to say, Lord, help me to pray. You are saying, Lord, chew your burden of prayer and put it on mine. Place your burden of prayer in my spirit.

Let me have an unquenchable hunger to pray. Please, Lord, increase the prayer content of this work. And let this go all over the world.

A lot of organizations are taking place. A lot of meetings, seminars, all these things are going on. But there's one matter that will change everything.

Prayer will change everything. Somebody wrote a book and said, prayer changes the world. Ian Vance wrote several books on prayer.

And one of his best material, Coward's Rue Prayer. R. A. Torrey wrote a very special book on how to pray. Very simple.

But I have found that men who pray, they are the ones that bring down what heaven is wanting to release on the earth. Lord, help me to pray. That's what we are praying for now.

We are not asking for food. We are not asking for clothes. We are not asking for anything.

We are saying, Lord, help me to pray. Help me to speak to you. Help me to be in the place where I can stand in your presence until something happens.

Now after you have prayed your prayer for yourself, now I want you to now bring your two hands to heaven on our behalf and say, Lord, for this work not to dissipate, for it not to become a mere noise, increase the prayer content. Are you asking God for that? Lord, increase the prayer content of this work. Increase the prayer content in every place.

Compel our brethren to pray. There were testimonies of what God did on MLR as some of our brethren decided just to pray. Some were praying for several weeks.

Some took tons of fasting and prayer. We have seen some results, but if we will pray more. God has summoned us into the place of prayer.

Please ask God, help us to pray. Lord, please increase the spirit of prayer in our midst. Pour upon us the spirit of grace and supplication as you did because the children of Israel requested to call on me to remind me of these things.

To ask me to do it. Lord, pour upon us afresh that in this year we shall pray. That in this year, O God, we will see more prayers.

You will teach us how to pray strategically. You will teach us to pray to see results. Lord, teach us to pray.

Thank you. In Jesus Christ's name, we have prayed. Amen.

Now, I want us to sing just under six, just two times to conclude our prayer together. We tears and groans and thirsty. O Lord, help me to pray straight until you revive me.

Thank you for the privilege of prayer. Thank you for the equipping for this next phase of our assignment. Thank you that you have asked us to ask you.

And I know that it's because you want to do it. That's why you have asked us to ask you. We've asked you for unction.

We've asked you for fire. We've asked you for refining. We've asked you, Lord, for a new heart.

Passion for souls. And we have asked you for passion for prayer. Not gold.

Not knowledge. We even unlock for prayer and unity. Unity of heart with the brethren.

It will bring the latter rain. So we beg you tonight, help us to pray. I ask, Father, that as we move into the year 2022, prayer will be a factor in our lives.

Concerted prayer will be on the increase in our midst. Lord, that every center, every floor group, every discipleship class, they will pray. Not that they will just say we're organizing prayer and nobody prays.

You will lay burdens of prayer on our spirits. You will cause us to pray. You will cause us to travel until we see this thing that you are talking about, being born in our earth.

Being born. And when we come back and you begin to show us the dimension of what it is, the length and breadth of what you say you want to do now, it will become clearer that we cannot attempt it except we can only pray. Lord, you have started speaking today.

Please answer our prayer. Holy Spirit, we need you now to undertake for us as we take some very, very important and urgent prayers. We know you'll give us wisdom to pray.

You'll give us utterance. And Lord, as we pray together, you will answer us. In Jesus' name we have prayed.

Amen. Sit down. There are a few urgent prayer points that we're going to take very quickly before we round up for now.

Amen. This is year 2022. Eh? Politics will heat up this year.

Isn't it? All the presidential candidates, the gubernatorial candidates, you can see their photographs everywhere. It will be more intense during this time. And it will be a very critical time for decision-making best among their parties before it will reach everybody else.

But we know that when things are not done well, it cannot be well down the line. So you want to pray tonight? We have known now that God answers prayer. And we have seen God answering prayers.

Eh? We have seen God answering prayers. Just that we don't give testimonies of all of that so that you will not think we are mysterious. But the truth is that prayer works.

We can rule. We can rule. Where? On our knees.

We don't need to run up and down. We can control what goes on everywhere here. If you know how to kneel down.

So we want to speak to God for Nigeria. We've had enough of all the troubles. People have been killed.

Kidnappers. Everything has come upon us. But one thing I noted that God said He's in the midst of this.

And His purpose is going to be accomplished. So we want to speak a word to God for Nigeria first. And the one word we are saying to God is that note.

It's all. Those who say the above right, they will not say Nigeria finish. There's too much indebtedness going on.

I don't know what the economists will have come on to explain to us how we are not in good shape. Because there's so much borrowing. The other day my wife raised me an alarm that the Chinese because they have given so much loan to Uganda or something and they want to recover it.

So they went and took over the an aspect of their international airport. they took over. Chinese said since you have not paid us we take this.

And as our government they keep borrowing everywhere. They keep mortgaging us. Sometimes you see a road being made and then they will put a sign board Sukuk Bond.

As if to say this road that we are making for you as you are riding it you are in bondage to us. What that means they have not told us. Implication of that nobody has they won't speak explicitly about it.

The last time we were looking at the state of the economy we all cried. We were in trouble. What is our foreign exchange now for \$1? It's almost about \$600.

So the matter is that we are not likely to come out of this inflation that has come. But all of that is not the question. What we solve it is here.

Obasanjo called a meeting as if he was trying to look for a way forward for Nigeria and they talked here they talked there I listened. But as I listened the spirit of God reminded me and said do I think those ones

can find solutions? The only people that can bring help to Nigeria are people who can pray. Do you want us to take that position of prayer tonight? Eh? To say Lord save Nigeria.

Save your heritage. We've read a passage one of the sons already said the Lord will give back to us our inheritance. But as we are praying for Nigeria I want you to know that if God does not help Nigeria now we are going to become a problem to the rest of Africa.

And yet we are supposed to be a solution to Africa. The destiny of Nigeria is to bring answer to the rest of Nigeria. There are so many things that are going on that we need to cry to God about but I just want you to stand and say Lord save Nigeria.

We are going to pray about the politics that is going to heat up. I want to ask God for one strategic thing. That while we will we will watch and pray but Nigeria must not be sold out again.

We have had enough of this arrangement just to smuggle us into something else. And you see all those technical arrangements of the headsmen going everywhere, sacking people from their villages and settling there and putting people back in IDP. I want God to look into it.

I want God to speak into it. I want God to turn that story around in Nigeria. I know that some people now they are actually almost don't want to go back again to their own place because it looks as if you do well by being a beggarly object.

But that is not the way forward for us. The number of children that are wasted, teenage pregnancies that we cannot account for, students that their career have been completely disrupted. All of that is not for today.

It's tomorrow. When they will now become another vanguard for evil because they have no direction in life, that's when the trouble will come back. So let's agree together and say, Lord, in one word, deliver Nigeria.

Let your destiny for Nigeria not fail. And let this thing that's happening not become a distraction to the move of God. Pray that this dream will heal Nigeria.

Pray that this move of God will enter into our political space and bring healing there. The calculations that is going everywhere is elaborate. But God sits in the heavens and what does he do? He rules in the affairs of men.

Would you like us to pray like that? Let's pray. Let's pray together. Let's call on God together.

Please call on God with me for Nigeria. Lord, save Nigeria. Lord, we are asking that in this year, 2022, begin to redefine for us what Nigeria should focus on.

Lord, we are asking that you will lift up your hand over this country. We have done too many atrocities and if you were going to look at us according to our iniquities, you would not talk to us. But because you have left some of us here, you have appointed some of us as watchmen over this land.

You have given us the privilege of standing in the gap and you said you will not do anything without revealing it to your servant, the prophet. This night, oh God, we just stand in the gap for Nigeria. We plead for mercy, oh God, save your heritage in this country.

Lord, we are pleading that you will walk your walk in this place. This year, politics is going to heat up. It has already started.

In Benue, we have several hospitals, about 30 that are seeking to become governor. Some of our brethren are there and you plead with God today that heaven sort us out. Just give us your own deliverance.

Please pray. Please pray. Nigeria is our critical point of prayer now.

If this reviver is not going to be scuttled, is not going to be scattered, if what God wants to do will be done, please pray that Nigeria, God will fix Nigeria. We are very deliberate, asking God for this. Lord, arise and fix our nation.

Deliver us, Lord. Deliver us. Save Nigeria.

Save Nigeria, Lord. Save our educational system. Father, please save our political arrangements.

Deliver us, Lord, at a time like this. Raise the air for us by your spiritual God. In the name of Jesus.

Lord, we plead for mercy. Can you speak into the matter of the IDPs, the people that have been disposed and they seem to have no hope of going back. Can you ask God to arise? Let him rebuke this injustice and deliver us.

Let there be a divine intervention. Lord, let there be a divine intervention. We plead, O God, that you will arise on our behalf.

Please pray for those that are in government presently. Pray that God will overrule for us. Pray that we will receive a divine help in the coming days.

In Jesus Christ's name, we have prayed. Can you pray for the political class, the politicians? Pray that heaven will visit us. All those that are just sponsored and sewn into that space by the enemy of the kingdom while we slept.

Can you ask God for heaven to begin to do a reshufflement on our behalf? Just pray. Don't calculate how it will happen. Just pray.

Pray for our brethren that are seeking political offices. Several of them. Pray that they will get to know the will of God for each one of them.

And that whatever it is that you have installed for each of their lives, they will work into it. Please ask God to send us help. Ask God that the matter that is going to be a matter of discussion in the country, let God undertake for us.

Let God begin to speak into those issues in a manner that we will see a divine visitation. Please help us. Now as you are praying for Nigeria, don't forget that this stream has gone outside the borders of Nigeria.

So can you pray for all the countries? Begin with West Africa. Go to East Africa. Then we go for the Southern Africa.

And let's pray for the North of Africa. Let's pray for the North of Africa, Tunisia, Libya, Morocco. Those nations that the Lord has to visit.

Please pray and say, Lord, visit the continent of Africa for us. We are pleading that mercy will prevail with us on this. And that this stream will bring healing to the nations.

Blessed be your name this day, Lord. In Jesus Christ's name, we have prayed. You will pray for the body of Christ.

Several changes are also taking place. We have seen changes of leaders. There are others that are very thorny and very difficult.

But let's ask God that today, as you have spoken to us in your word, that you are going to draw men, top leaders, heads of their denominations, you withdraw them. They will be thirsty. They will look for what money cannot buy.

Can you ask God this moment and say, Father, remember the body of Christ. Remember the church. Visit your church.

Revive thy church, O Lord. Revive your people, O God. Take away hypocrisy and denominationalism from our midst, that we may flow together and fight a common battle.

Please pray. Lord, we pray for your church. Do a new thing in our midst, O God.

Visit your people deliberately. Thank you. Thank you for hearing our prayer.

In Jesus Christ's name, we have prayed. Amen. Can we ask God for your own lives? Is there any issue that we have not covered? It appears as if it is escaping.

It is time now to lift it up before God. Is there anything that you feel that, ah, I wish they pray over it for me? We want to agree with you now. You might just keep standing before God and we are praying for your personal needs, your personal challenges.

Things that heaven is pointing at and you are saying, Lord, if only you can help me out of this. We declare since the beginning of the year that this year, 2020, will be a year of praise. You are going to praise the Lord.

Your testimony will bring joy to the household of faith in the name of Jesus Christ. Any need in your life, please lift it up before God. Any need at all.

Even when we have not mentioned it, heaven is already programming you for a different visitation. So lift it up before God. Don't hide it.

Don't keep it. Let God walk in our midst now. Thank you, Lord, this night and for the need of your church and the need of our brothers and sisters yearning gathered and those that may have gathered differently in different places and those that have been asking questions on the Facebook or whatever, we ask now, Lord, that you will respond to us.

Please respond to your people individually in the name of Jesus. Lord, those that have struggled before, as you have declared to us, 2021 went away with their struggles. We now ask, Father, that a new chapter opens.

You did say to us that instead of prayer, you are going to give a suppressed tree. Lord, we are asking that those things you intend to do, that we promise both to individuals and to us. Lord, arise and do it.

Bring your will to pass in our day in the name of Jesus. Thank you for hearing our prayer now. Thank you for many things that you are going to do.

As this year begins, from one month to another month, there will be a record of victories. There will be a record of your interventions. Lord, in every respect, we are going to have testimony.

Thank you for our brothers and sisters who are taking space of time to be with us in different parts of the world. We ask you, Father, to visit them. Please do something deliberate about them and give them a joy in the name of Jesus.

Thank you, Lord, for listening to our prayer. Thank you for the work you are going to do. Thank you.

Thank you for our visions retreat that will start in a few days. We wait on you, O God, that even in them, you give us a dimensional understanding of what we should rise up to do. Thank you.

And so, Lord, we bless you for those who will travel out of town. Please go with them. Those, O God, who are among us are going to drive and they have not slept at all, we ask that you please refresh their hearts and help us, Lord, that when they have rested a bit before they go, you will cause your glory to rest upon them.

You have brought us into the year 2022 for a purpose. We will fulfill it in Jesus' name. None of us will die young, O God.

You will preserve our bones. You will deliver us from every form of accident. You will release your people, O God, to serve you with all their hearts, with all their strength, with all their bodies.

Nobody will be knocked down in Jesus' name. Lord, we lift up a voice, O God, on behalf of our people concerning COVID. Please, Lord, resolve that confusion.

Resolve it in Jesus' name. We are asking, O God, that it will please you to take it away from your people and cause us, O God, to walk in your liberty again. Thank you.

Blessed be your name for hearing our prayer and for doing beyond what we can ask or imagine according to your riches and glory. Thank you. In Jesus Christ's name, we have prayed.

Amen. Amen. Praise the name of the Lord.

Increase the mic. Praise the name of the Lord. Happy New Year.

God bless all of you. Just turn to somebody and say, Happy New Year. And that you are walking out into your home above.

And God bless you. Amen. Before we rise to share the grace, we will take very, very few notices.
