

God Did Not Satisfy Their Hunger

by George Warnock

The sermon emphasizes that while God provides for our needs, true fulfillment comes from spiritual hunger and dependence on Him rather than seeking worldly satisfaction.

Duration: 1:29:34

Scripture: Genesis 22:1-18, Exodus 33:14, Ephesians 1:18, Hebrews 11:10, Hebrews 12:18-24

Topics: "Hunger"

Description

In this sermon, the speaker discusses the story of the Israelites in the wilderness and their complaints about the manna provided by God. The people expressed their dissatisfaction with the manna, which angered the Lord and resulted in a fire burning among them. Moses prayed and the fire was quenched. The speaker also references the story of Jesus being led into the wilderness to be tempted by the devil, highlighting the importance of going through trials and temptations before being able to fulfill one's purpose.

Take a break. But remember you're following behind. Don't try that power yet.

Unless you feel very secure about it. Whenever. Don't try it yet.

Now, who do you see there? I can't use it anymore It's getting dark in the dark you see I feel like knocking on heaven's door Knock, knock, knocking on heaven's door Knock, knock, knocking on heaven's door I put my guns in the ground And so what did they say to Moses when they came to this place which the Lord had sought out as a resting place? They said our soul loathes this light manna, we can't stand it anymore, our soul is dried up But with nothing here but this manna to look at God had provided everything they needed But he did not satisfy a longing that God provided along with the manna He did not satisfy their hunger They ate it, they were still hungry They'd fill up so they couldn't take anymore, two quarts of it every day What's for breakfast, manna?

Dinner, manna Supper, manna cakes Grind it in mortars, make meals, make biscuits Precious food They'd fill up on it but they were still hungry Do you know why? Because God prepared it in heaven Do you know the only thing that is hindering God's people From going on with him is the lack of hunger That God has every provision for every longing of the human heart But if there's no hunger, there's no way that God can feed them And if they do not partake of the hunger that God provides in the manna With rebellious hearts,

they'll try to find it somewhere else Instead of realizing, Lord, I know I'm hungry but what's this all about?

Do you know that this was corn from heaven? Do you know that this was angels' food? Which another one translates to bread of the mighty God said in heaven, I've got a people down there in the earth And they're so weak and helpless and so insufficient I'm going to feed them with the kind of bread that you angels partake of And he sent some of it down to earth in the form of manna They didn't know what it was They didn't know what it was for hundreds of years Until Jesus came in the scene and said, I'm the bread of life Barely Moses gave you not that bread from heaven But my Father giveth you the true bread from heaven That a man might eat thereof and not die Prepared in heaven, corn of heaven, totally sufficient Verse 4, thy raiment waxed not old upon thee Neither did thy foot swell these forty years What are we partaking of in the church?

When we partake of the same diseases as they have in Egypt The same afflictions as they have in Egypt You say, well, of course, we're part of their society God's people were called out of Egypt And God says, if you walk with me and follow my ways I will not lay upon you the diseases of the Egyptians And there was provision for physical, spiritual health in the manna But instead of deriving that strength that God had imparted From this bread of the mighty He didn't allow the manna to fulfill its purpose within them And in creating that hunger They didn't know, they didn't learn That God created that hunger That that hunger might reach out after God He suffered thee to hunger and fed thee with manna Which thou knewest not Neither did thy fathers know That he might make thee know That man doth not live by bread alone But by every word of God They didn't learn that They didn't know the manna What is it?

They never learned, they never discovered It was God's provision for every need But it didn't meet their carnal appetite It didn't satisfy their carnal appetite Give us flesh, they said, give us flesh God heard their crying And said, I'll give them flesh, Moses I'll give them so much That they'd be a month eating it Moses said, Lord, if we slew all the flocks and herds You couldn't do that God says, you're going to see Whether my word will come to pass or not God caused a wind from the east and the south And blew in the quail and surrounded the camp It says two foot high Not meaning they were piled that high But they flew two cubits, about that height Three feet Instead of stooping down for the manna Little grains and filling their little cartons They just reached out and grabbed those quail Wrung off their neck and piled them up Till the man who gathered the least amount Gathered sixty-five bushels While the flesh was still between their teeth Before they'd even swallowed it The plague of the Lord fell And consumed them in the wrath of God And this place which God had ordained As a place for the resting of his people For when they departed from the mount of the Lord Three days' journey The ark of the Lord went before them In the three days' journey To search out a resting place for them The place that God had designed to be a resting place Became Kibra Petava The graves of longing The graves of desire And they were buried at Kibra Petava The manna will produce a crisis in your life It's not going to meet every desire of your heart Either in the natural or in the spiritual So you're either going to learn from the manna That provision from God in the wilderness, Lord, I'm still hungry But Lord, it's only you I want Or you're going to learn that I don't want that stuff I don't want to look at that stuff anymore I want quail I want something else to satisfy my hunger The revelation of the heart of man I'm telling you is something that can be very fearful And you won't know it's in your heart Until the test comes When the test comes, you'll be afraid You'll wonder, where did that come from?

God says it was there, but you didn't know it I don't boast that I've been waiting 30, 40 years for something I could see how I could have so easily fallen At Kibra Petava Very easily And there are many people today who are Walking skeletons at Kibra Petava Who once knew the power and the anointing of God Because

when that desire was there It was not purged and cleansed Instead of casting away the enticements of the world Saying, Lord, I'm hungry, but I know I can only find it in you And that's what the manna was intended to do They desired something else And found scripture to support it For anything you want to do You can do it, I mean, you can find scripture for it And God might let you do it I remember this man, very notable Healing evangelist When he came across that scripture, he

says In John where it says Beloved, I would above all things thou should prosper and be in health He says, that changed my whole outlook in life And he claimed prosperity Today God forbid that I should judge Is he a walking skeleton Under grave plots of Kibra Petava Because he did not allow the Lord of Glory To refine his desires And so purge them That there be no place for fleshly desire But only a desire for him How many have fallen on Kibra Petava Because of unholy desire I got your watch I just want to bring out a few thoughts from Matthew chapter 4 Then was Jesus led up of the spirit into the wilderness To be tempted of the devil Mark says he was driven into the wilderness That he was literally thrown into it Jesus the son of God could not Though he was anointed with the Holy Spirit

Come out of the waters of Jordan With a mighty anointing To go forth to heal the sick And raise the dead And cast out devils And loose the prison bonds And set the prisoners free The spirit thrust them into the wilderness You can't go out and do that Until you're in the wilderness To be tempted of the devil Because if you're not tempted of the devil In the wilderness You're not going to survive the wilderness And you're going to come out Opposed to God and his throne Like Lucifer did of old Who when once utterly dependent upon God For he had no bread But the bread of the mighty Which meant utter, total dependence upon God Says I'll cut that lifeline I will be like the most high And when he had fasted Forty days and forty nights He averted and hungered And when the tempter came to him He

said When you're hungry The tempter comes When you eat of the manna You hunger Doesn't satisfy your hunger Fills you up You're still hungry The tempter came and says You're hungry You're the son of God Take this stone Make it into bread But he answered And in his answer he quoted What Moses declared to be The intention of the manna That God caused thee to hunger And fed thee with manna That you might know That man doth not live by bread alone But by every word of God Jesus quoted that When he was hungry Like they were in the desert He could have done it He could have taken that stone And turned it into bread And who would accuse him?

He was hungry and his fast was over What would have been wrong?

Only one thing It wasn't the voice of the Heavenly Father It was the voice of the tempter Man shall not live by bread alone But by every word that proceedeth Out of the mouth of God The devil taketh him up Into the holy city And setteth him on The pinnacle of the temple And saith unto him Is thou be the son of God Cast thyself down For it is written He shall give his angels charge Concerning thee And in their hands They shall bear thee up Lest at any time thou dash Thy foot against the stone He could have done that He had power But he would be tempting God I could cast myself down here From the wing of the temple And all the crowds milling around in the temple Would receive me as the Messiah With shouts of triumph Here has come our Messiah Down from heaven But he'd be tempting God If God

didn't tell him to do it He'd be testing God What you're telling What some preachers are telling their people to do To test God You're not supposed to do that If God tests you Don't you test him And again he quoted the scripture From way back there Massa and Meribah Moses said Thou shalt not test the Lord thy God And he took him to the To a high mountain And showed him all the kingdoms of the world And the glory of

them And saith unto them All these things will I give thee If thou wilt fall down and worship me Then said Jesus unto him I can get thee hence Satan For it is written Thou shalt worship the Lord thy God And him only shalt thou serve Again A quotation from Deuteronomy For a people Whom God would bring into this Marvelous land Let me just say Regarding this land It's that area

that God wants to Develop within the wilderness of your life God wants to so invade The wilderness areas of your life That in every faculty of your being The living God is revealed and expressed Manifesting his glory Not to make you someone great But to humble you To make you so small That except in union with the body of Christ You're just a feeble member But in union with the vast body of Christ You're that new creation of God God destined the Lord To be the greatest creative work That he'd ever performed Don't people talk about temples over there Forget it He's building a temple not made with hands Stephen we're stoned For saying something that I'm saying Because they wouldn't accept it God doesn't dwell in temples made with hands You're the temple that God's going to dwell in When God

finds the temple that he wants to dwell in It can't be anybody else It can't even be angels It can't be archangels Because you only are compatible with his nature Because you only are made in his image One day God is going to put on display The crowning masterpiece of his creation The church of the living God The body of Christ The bride of Christ The inheritance of the most high By the people in whom he has desired to express The very fullness of God May the Lord bless today If you will hear his voice Harden not your heart Stand with me please We thank you Lord for your precious word This afternoon our hearts are warmed by it We're warmed and warned Lord we don't want to harden our hearts We want to be drawn aside to you How we love you How we worship you Thank you for having our brother

deliver his soul We receive it Lord We receive it Folks just stand a minute and receive his word right now Lord we've got to hear what you're saying There has to be a people today Don't harden your heart And Lord that means Don't let your heart drift Don't let your mind drift But focus on this truth Holy Spirit I don't want to miss it I want to move in on your heart And I want to know you And I want you to know me Bring that out of this place today A people who will know you The people who desire you above everything on earth God bless you Folks will you be Will you come back tonight ready to I mean just to have a glorious time in the Lord You know what the Lord is doing for you He's making you love his word more than you've ever loved it Creating a hunger and a thirst For his

righteousness too Have a good meal 730 Right back here Let's stand first of all in Numbers 9 We're not going to skip Sinai exactly But they won't tell us till they got to Sinai I stayed there I believe a year or so At the meeting of the Lord Sinai was a turning point It was a turning point Up till then we'd been getting further away from Canaan After Sinai it was going directly towards you And God's direct route to the land of promise Is a roundabout way God's direct route I like the positive message too God says this And I'm going to get it God says we're risen with Christ And we're seated with him in heavenly places God says it's done We're seated there now So what's all this talk about going into it God said to Abraham Arise Abraham and walk through the length and the breadth of the

land Every place that the sole of your foot shall tread upon Shall be yours And Abraham walked through the length and the breadth of it And it is a beautiful land And he was claiming it for himself Because God says it's yours But the fact remains Till the day of Abraham's death He never possessed it as such And the reason he never really possessed it And could make it to be his home And would say God called me out of the earth of the colonies And promised to give me a son And to make of me a great nation And to give me this land And the reason Abraham did not find it in his heart To claim the promise Was because In view of

the way that the Lord had led him And in view of the many offerings that he had offered unto the Lord As he wandered through the land To Shechem To Bethel Down to the

south Notice Down to the south, notice Down to the south Back into Egypt in the time of Salmon But reproved of the Lord And brought back to the south land again Back to Bethel The circle, eh?

Down and up again And then on to I forget what was next But everywhere he went Erecting an altar unto the Lord Knowing that this was the land that God had given him So finally he settles in Hebron A very beautiful land, a very fruitful land Made that his home All the while cherishing The fulfillment of God's promise Abraham, this is your land Isaac, I have given you as the son Through whom all nations shall be blessed Still there is something in Abraham's heart that says I know, Lord, what you said is true I believe it But my heart isn't satisfied There must be something better How do I get that?

Well, when Sarah died in a He had to find a burying place for her He went to, who was it he went to To buy the plot of ground to bury Sarah in Hamor And he says, tell me A piece of land here Now mind you, this was the country that God had given Abraham Tell me, just enough to bury my wife in And he said, oh, go ahead, Abraham, you're a great man We thank a lot of you Go ahead, no, but he said, I can't And he didn't know why, but Abraham said, I can't do that I gotta buy it Because he says, I'm a pilgrim and a stranger here And so the Holy Spirit picked that up Something that no natural logic could pick up But because Abraham and his future descendants Who were also men of faith Confessed that they were strangers and pilgrims in the earth That proved that they were looking for a better

country He was in the land that God had given him But he says, I'm a stranger and a pilgrim in it Because he says, this can't be all There has to be more than that And there was more than that Abraham wouldn't see it yet Until he'd gone all the way I trust that in whatever state God finds you right now You will find it in your heart to go on into the fullness And that God will never let your heart be satisfied In any gift or any ministry or any blessing Or any enlargement that God might give you Until you come to the full intention of the desire of God's heart And because that was the full intention of the desire of God's heart He would give Abraham the final test And if Abraham would pass this test He would draw a very night Under the desire of the heart of God It was grievous to Abraham

when God had said some years before Send Hagar and Ishmael away For Sarah, his wife, had said Cast out this bondwoman and her son For the son of the bondwoman shall not be heir with my son, even with Isaac The thing was grievous in the eyes of Abraham Because after all, Ishmael was his precious son Whom God had given him But Isaac had come in the scene And God says it's not going to be in Ishmael It's going to be in Isaac that I will fulfill my promise Telling you and I that whenever we set our hands To try and fulfill God's work We're going to spoil it That's why any altar that was built unto the Lord in the Old Testament Had to be built of whole stones You couldn't take a stone and chisel it nice so it looked nice Just rough stones that they'd take and pile together Because God says if

you lift your hand upon it, you've polluted it Yet people tell me that the great pyramid there Is a marvelous altar to the Lord in the land of Egypt Carefully chiseled by human hands It's a polluted altar if it's an altar to the Lord Of course, trying to find the word of God in that One more test that Abraham had to go through When God had given him everything He appeared to Abraham and says Abraham, take now thy son, thine only son Isaac whom thou lovest And take him up into one of the mountains that I will show you And offer him there unto me as a burnt sacrifice And without question, the next morning Abraham Prepared for the journey Took Isaac, took the wood, took the fire for the burnt offering We can't hardly conceive of that And

it's so difficult For God's people, I think

particularly difficult for God's ministers To think that God is saying To lay down something that God himself gave them In answer to his own promise And perhaps in answer to the prayer of faith God gave it You ask me to give it back to God But let me tell you, it's going to take that If we're going to have that full revelation of Christ So he went up the mountain, you know the story How he laid out Isaac on the altar And intent and purpose, he had actually slain Isaac As the apostle Paul tells us He had done it in his heart, the work was done And he had a revelation of the Lord He had a revelation of the Lord of glory Such as he had never had Shishim, Bethel, the Negeb, Hebron Blessed places that God had led them to But he never had such a revelation of the Lord As the day when he gave

back to God everything That God had entrusted to him It's going to take that To come into that full revelation of the Lord Jesus said, your father Abraham rejoiced to see my day And he saw it and was glad I don't know of any other mountain that he could have That Jesus was referring to, but Mount Moriah And he'd given to God everything And he saw something better Better than the land, better than Canaan Better than the possessions that God had given him For he got a cut a glimpse of the city That has foundations whose builder and maker is God But you can't really see that vision Until you know your Moriah experience And I'm not here to tell you that You've got to go out and Lay everything on the altar, literally Sell everything that you have and give to the poor Or whatever I'm here to

say that if you're going all the way with God You've got to give him everything If and when and how God might choose to ask you That's up to him And so they went south to Sinai We can't go through that The brethren have touched on many aspects of it They were to go north from there On to victory But before they could go on to victory They had to stop at Sinai They had to learn the ordinances of the Lord They had to be a cleansed people They had to be a prepared people All defilement must be put away Of course God knew they were sinful people And so he ordained sacrifices of atonement That when they sinned they could bring their sacrifices And be acceptable in the sight of God God was requiring holiness of his people He knew they couldn't give it So he provided the remedy Because it was

impossible that the blood of bulls and goats Could take away sin It wasn't possible But it covered sin for a season The new covenant Christ did what they couldn't do with all those sacrifices So that that law Which they looked at and trembled When the sounds came forth from Sinai Thou shalt not, thou shalt not, thou shalt not, thou shalt not And there was darkness and blackness And tempest and smoke and fire And quaking of the mountains So that the people ran away And even Moses said I exceedingly fear and quake That you come to a different mountain From Zion the city of the living God And the heavenly Jerusalem And to an innumerable host of angels And to the general assembly and church of the firstborn Which are written in heaven And to God the judge of all And to the spirits of just men

made perfect And to Jesus the mediator of a new covenant And to the blood of sprinkling And to speaketh better than that of Abel To God the judge of all And to the spirits of just men made perfect God is speaking from Zion today A better mountain, a greater mountain A more gracious mountain And a more terrifying mountain See that ye refuse not him that speaketh For if they escape not Who refuse his voice who spoke from earth How shall we escape Who hear his voice from heaven For yet once more saith the Lord I will shake not the earth only but the heavens also Moses and the children of Israel Trembled at the quaking of the mount God says once more he's going to shake And this time there's going to not only be earthquakes There's going to be heaven quakes And the purpose of the heaven

quakes that are coming Is to destroy everything that is shakable People look at the great and terrible day of the Lord And all they see is the terror of it It is terrible It's full of terror But it's also the great day of God almighty When God rises up and says I'm going to put an end to the reign of sin I'm going to crush it I'm going to stamp it under my feet God's angry Do you know why God's angry?

Because of the desolation that this world system And the religious system is made of God's temple He says it's the vengeance of my temple that I'm after I'm going to avenge my temple God awakes out of his sleep as a mighty man Goes forth conquering But he's going to do it through a conquering people And the conquering people have got to be a holy people A cleansed people A people who have known and heard And partaken of the righteousness of God Not at Sinai but at Mount Zion And when they go north They go north with the tabernacle of God For it was there at the foot of the mount That they received the instructions for the tabernacle That their brother spoke of Moses told the people to bring Bring something Some scarlet Some wood Some cedar wood Some precious stones maybe Bring some brass

And the only brass they had was the Looking glasses of the women so The women brought their looking glasses And they melted that down To make the labor That instead of looking in the Brazen mirror to see how pretty their face was They would look into the mirror of God's word See what God thinks of them And they brought silver And linen All these different things and You know It would take a month to go into this adequately wouldn't it But God says let them build me a sanctuary That I might dwell among them I know that there's a cry There's work to do and the end is near Let's get out there and fight the devil Let me tell you you're not going to make any great inroads Against the powers of darkness in this world Until you pause there at Sinai And learn the ways of the Lord And the

judgments of God And the holiness of God And a tabernacle is constructed for his glory And God is building a tabernacle According to the pattern in heaven That was just a A very imperfect shadow But the real temple is the temple that God has designed in the heavens In which he's manifesting on the earth A temple not built with hands A temple composed of living stones Of which you and I are the members See I don't have much I don't You don't need much Because this thing that God is going to do Is not going to be in some great man It's going to be in a corporate people We had a warning of it when they were baptized in the cloud That here was a people who were baptized In God's spirit I thought that was Canaan too It used to be Canaan in early Pentecostal song and testimony I got the baptism

of the Holy Ghost And so that's Canaan It was the first step of the journey First step of the journey There had to be much accomplished after that This preparation What a glorious feeling Just to feel that mighty cloud of God Just to go right through you That mighty baptism And Israel received it in type But with the most of them God was not well pleased And they were overthrown in the wilderness And so Paul says the reason I'm referring to that And the reason I'm referring to the instances in the Old Testament Where your fathers perished in the wilderness Was to the intent that you should not Lest after evil things as they did To the intent that you should not murmur as they murmured To the intent that you should not complain as they complained That's why it's there for you and I So that

we can learn from what happened to them But God's commentary is They didn't know my ways Because they didn't come to know God's ways They never come to know the heart of God So I didn't know when I mentioned before How I longed for God and wanted to know God I didn't know to take a lifetime To walk in His ways to come to know Him And I don't know Him yet Because now I've discovered it's going to take eternity For me to know Him But that doesn't discourage me Because God has put eternal life within And instead of looking upon heaven as a boring place as I used to Goodness Nothing but the Walk the golden

streets I've come to see that this speaks of that city That Abraham saw whose builder and maker is God A people in whom God dwelleth The tabernacle of the Most High The Bride of the Lamb

The Body of Christ The Precious Virgin without spot or blemish That God made for Himself Making a sanctuary that I might dwell among them Made it for Himself God says when you come into Canaan You're to be a people of inheritance You're to be my inheritance Paul prayed that with this spirit of wisdom and revelation We might come to know what is the hope of His calling Not your calling What is the riches of the glory of His inheritance Not my inheritance His inheritance in the saints God's got an inheritance in you He's got an inheritance in you Do you know what it cost Him?

Everything Do you know what it cost Him for Everything that you can see in the world Everything that you can see in the heavens Do you know what it cost God? What was it? A whisper or a Or a John? Whisper A word Let it be and it was Do you know what it cost God to bring forth this creation that He's making out of you and I? Everything I'm not theological when I mention this But I don't like to look upon the concept of One, two, three persons and God says Jesus you go so God stayed there Secure in the heavens And the second one went and did the work And I know that when Jesus hung on the cross that God the Father was there Feeling every anguish, feeling every pain of it That the God who created the heavens and the earth says I'll go down and I'll suffer myself Because I'm a humble God How can a humble God walk with a proud people?

That's why He's out to make you and I humble He wants to walk with you He wants to dwell in you He wants you to be the house in which you will dwell And live and move and express Himself in the earth and in the heavens To the intent that in the ages to come He should Show unto the principalities and powers in the heavens No To the intent that now Unto principalities and powers in heavenly places He might make known through the church The manifold wisdom of God So God's making a sanctuary You're all a part of it I don't care if it's just a piece of red thread or a golden thread Or a piece of wood For this body of Christ that He is making is likened unto the human body You read 1 Corinthians 11, 12, 13, or 12, 13, 14 A hand can't say to the foot I've no need of you Ears can't say I've no

need of the eyes It's the body that God is making Don't ever think you're going to become this great and mighty Christ in the earth God wants to join you unto Him and therefore unto one another Until this mighty Christ is of a truth revealed and manifested in the earth and the corporate people For you're the body of Christ and members in particular And God has tempered the body together Giving more abundant honor to those parts which lack That there be no schism in the body You know that the reason for schism in the body of Christ is not because you won't come in and form a New Testament church It's because that people are sitting there in the congregation not being taught Not given the hope that they themselves should be a vital living member in the body of Christ But as long as they

come and pay their dues and fill their pew The preacher can be happy because he's got a whole bunch of people which he calls the body of Christ Until that minister in his dedication to the Lord and in his commitment to the Lord So seeks God that he's able to impart the living Christ into that member which is lacking Try as you will we're going to have schism in the body of Christ But there be no schism in the body of Christ when every member comes to that place Where Christ is enthroned in his heart and life Where Christ is the sum total of his hope and desires and ambition When Christ crowds out everything else Then we're going to find this corporate people Which is the expression of the living Christ in the earth Which expression is going to Until principalities and powers and heavenly

places reveal the manifold expression of God's wisdom It's no mean inheritance that God has in mind It's a great inheritance We call it ours but it's really his Because as God finds his inheritance in you and I So do we find our inheritance in him The tabernacle And then on into the wilderness again Let's turn to Numbers 11 Notice that before we come to Numbers 11 there's another reminder That the cloud of the Lord was leading them Because we like the children of Israel As soon as we get off into that wilderness again we say well what happened It's so beautiful there, so wonderful But from here you go into a wilderness Verse 35, chapter 10 Exodus coming out Preparation of the tabernacle Leviticus, the divine order, the divine arrangement, the sacrifices The manifestation of the holy

sacrifices of God To purify and cleanse his people And then Numbers where the hosts were numbered for battle They were all numbered and set in their place for battle And therefore the cry was As they marched forth from Sinai going north to the land of promise Came to pass when the ark set forward not just the cloud this time But the ark of his presence Over which the cloud of God hovered That Moses said rise up Lord and let thine enemies be scattered And let them that hate thee flee before thee Let not him that girdeth on his armor boast of he that putteth it off But we sing this song and well Sort of puts the feeling of victory in you But that's not going to bring the victory Rise up oh Lord let your enemies be scattered Rise oh God let your enemies be scattered It gets so faster

sometimes I say rise scattered The rest of you are all there I'm saying rise scattered But it's a note of victory Because God was leading his people on to victory But he's leading them into another wilderness And the people complained and it displeased the Lord And the Lord heard it and his anger was kindled And the fire of the Lord burned among them It's a serious thing to begin to partake of the presence of God In the midst of his camp That cloud becomes a fire The darkness of your heart rises up against it That cloud will turn to fire Start to consume the people Moses prayed unto the Lord and the fire was quenched Numbers 11 chapter 4 And the mixed multitude that was among them The American standard I think says the rabble The rebellious ones Fell a lusting and the children of Israel

also wept again And said who shall give us flesh to eat We remember the fish which we did eat in Egypt freely The cucumbers, the melons, the leeks, the onions and the garlic And now our soul is dried away There's nothing at all before our eyes Nothing at all besides this manner before our eyes I think some of those other versions say Our soul is dried up and there's nothing at all left Except this manner to look at Nothing but this manner to look at But the manner wasn't given to look at The manner was given as God's provision for his people And it was a provision that provided absolutely every need that they had Every need that they had was in the manner The manner was as coriander seed Very small seed The color thereof was the color of bdellium Which I understand was white People went

about and gathered it Grounded it in mills Beat it in a mortar Baked it in pans Made cakes of it The taste of it was as the taste of fresh oil When the dew fell upon the camp at night The manner fell upon it Another place it says it was small and white Like the hoarfrost The dew would come down during the night And the manner would settle on it And then the dew would evaporate And there was manner They couldn't understand it All it did was raise questions Why?

What? So they named it what is it? That's what they named it Manner means what is it But Dr. Strong says it also has the thought of how and why And God's people in trial and testing and wilderness life Are always asking questions Why Lord? How? Why did you do this? You told me you were leading me to Canaan Why? How? Why are you so quiet Lord? Why don't you answer my prayer? How long oh Lord David said Read the book of Psalms Full of questions God's people have not been able to understand the purpose of

his leading So he gave them manner Strange food Took a lot of work to gather it You know it wasn't like popcorn that you could just gather it Like coriander seed very small They had to stoop down to get it And they'd get a couple of quarts of it maybe for one man Some would get more than they needed others less So they would share it So that he that gathered much had nothing over And he that gathered little had no lack So there was both There was sufficiency for the whole camp As it should be in the body of Christ For they were now a corporate people And God was taking the corporate people into the land of promise That's why I'm identified with the corporate people That's why I don't have a ministry When I'm not identified with the corporate people I'd like to I wanted God just by my own seeking I would have got it if I could have I tried I like people but not that much I'd sooner find God for myself God wouldn't let me Nor would he let me minister freely to a people who did not see Or desire this vision So it isn't that I just figured well I'll sit down now and wait Somewhere down the line maybe No, I am as dry as a haystack If there isn't an anointing on myself Or on the people to whom I minister Strange bread But Paul said it was spiritual food Spiritual bread And that was wilderness bread Turn to Deuteronomy 8 Can I borrow a watch?

Mine's stopped I don't know if the Lord did it or not Deuteronomy chapter 8 We come to Deuteronomy now Numbers Get ready for battle But Deuteronomy Moses has to die Because he had provoked the Lord himself When on the second occasion where they needed water God said to go to the rock This time God told him to speak to the rock not to smite it And for that act of disobedience Moses was barred from the land of promise It was He was He was baptized The people of Israel were baptized unto him And whatever happened to them Moses had to share their faith Not to say that he didn't deserve it He did deserve it Because he provoked the Lord And God says because you didn't believe me The sins of those who stand in the place of leadership Are much more serious in the sight of God Than those who are partaking of ministry Much more serious God says I'm barring you from the land of promise for that That was hard on Moses But he had a wonderful heart you know God says you get Joshua Lay your hands on him And anoint him and encourage his heart to take the people in But you go die How would you like that?

You can't go in, you've been disobedient But see that young man there You go and encourage him and teach him You know God's ways How would you like that? Moses accepted it I know it is a sin But it was their sin that rubbed off on him Paul tells us that Moses was faithful in God's house And God cherished in his heart a wonderful seeker That one day Moses would stand with the Lord Jesus Christ himself Along with Elijah on another mountain Many centuries down the road And would converse with the Lord Jesus Christ Concerning the death of the Lord Jesus What Moses and Elijah had anticipated all through their ministry So he didn't actually lose out In the long run He was faithful Their rebellion rubbed off on him Moses regretted that He repented of that He was sorry But God said I'm not changing my mind But I'm not telling you I've got something better Deuteronomy chapter 8 So the key word of Deuteronomy is remember Remember Remember all the way the Lord has led you Remember how that you When you came down to Sinai And God says now it's time to go up and take the land There's only 11 days to Kadesh Barnea That meant 12 days from Sinai They could have been in the land of promise We're not going to deal with that But they failed God Murmured and complained And their hearts were turned aside Because of the report of the spies And they wanted another 38 years in the wilderness But they had to come back Because God had already sworn with an oath I'm going to bring in your children That you said you couldn't bring in Because they weren't able to stand it They wouldn't have the power They wouldn't be able to stand up God says I'll make them stand And you die in the wilderness And God did it Not because they were better But because God had sworn with an oath That you people won't go in And you say because your children My children can't take it My children can't stand it God says I swear by myself I'll bring your children in And you go ahead and die And he did So Moses says remember 8 verse 2 Thou shalt

remember All the way which the Lord thy God Led thee these 40 years in the wilderness To humbly Led thee A lot of it was wandering But he's talking now to another generation No man there over the age of 58 Except Caleb and Joshua Because all that were 20 years old and under 38 years before Were going to 20 years old and over 38 years before were going to perish In the wilderness And so there's a new generation That needed to remember some of these things And God tells us why he led us in the wilderness It was to humble you To prove you To know what was in your heart Whether thou wouldst keep his commandments or no And he humbled thee And he suffered thee to hunger And fed thee with manna Now that doesn't sound right does it?

He suffered thee to hunger And fed thee with manna Which thou knewest not And so they called it manna Which means what is this Thing anyway Which you didn't know Neither did your fathers know He fed you with manna And caused you to hunger
