Transcript

This abortion in and of itself is a curse on our nation. It is a judgment. God has put on us a blindness and a stupidity where we don't even step up and speak out against this.

I'm talking about the church. Where is the church? The Bible is clear that you shall not murder and God hates hands that shed innocent blood and we should rescue those being, you know, led to the slaughter. You would think with the hundreds of churches in surrounding areas that you'd have a few more people called to save babies that are threatened with death.

I'm going to the churches across the street from the abortion clinic and I really just want to see what they, what they say. In this part of your missions program, has there been any organized outreach towards pro-life issues or going out to abortion clinics or anything like that? No, that's not something that I know the church is standing on. Do you know that there's an abortion clinic right across the street from you? Yeah.

No. Go stand in front of the abortion clinic, hold signs, I don't even have to see. It's not a comfortable ministry.

You're not going to be thought well of by the neighbors around or the staff of the abortion clinic. Why does my daughter have to see that? That's disgusting. I'm not killing my baby so it doesn't matter.

You're going to have the ladies that are yelling at you. Mostly when you're walking in the building, cussing you out. Right here at this abortion clinic they advertise on their website that there's no protesters so the ladies can feel safe when they come and that's no more.

We're going to end it now. Your secret is out. The people of this neighborhood will know that you shed innocent blood here and you sit back and laugh as the registered change turned from the blood money that you have clutched in your fist.
