Transcript

From this night to the day we die, and let me really shock you now, there is no stronghold on earth that Satan has built up that will not be broken down if the children of God get right with God and get on their knees as an army. America, your greatest danger is not Islam, it's not the wrong politicians in power. The only danger America honestly faces is if the Christians don't get right with God and get down on their knees into warfare against our enemy.

You won't know what's left of your nation, Christians, if you don't do that fast. If you don't seek God and get right with God. Revival is not attendances, that's rubbish.

Crowds mean nothing. Otherwise the Jehovah Witnesses are having a great survival in history. Revival is when God's people get back to this book in their purpose, unashamedly, unapologetically, and without touching its authority, just giving it, even if you lose all the sinners in one day.

I'd rather have three rows full of people who want this book than a church full of hypocrites who only want entertainment but not this book. And you've had revival for the first time in your life in your church then, sir. You've got people who come to hear this and want this alone.

Revival is when the church of Christ across this land, all those washed in the blood, stop compromising and seeking God desperately. And the evidence that they have is this book is first and last in their priority, even what they preach. Until that comes, this nation will crumble.

Brother, will you commit us to Christ?
